

# Seven Hills West Public School

Respectful, Safe, Responsible Learners

## EnviroMentors Incursion

Dear Students, Parents and Caregivers,

As part of Seven Hills West's 'Green Kids' campaign, students in Kindergarten, Year 1 and Year 2 have been given the opportunity to participate in a free sustainability workshop about composting. This workshop has been created by *Keep Australia Beautiful* under the name 'EnviroMentors' and aims to improve community awareness and engagement on local sustainability issues and initiatives. The workshop will be delivered by qualified teachers, who are experts in the fields of sustainability and waste management.

*EnviroMentors* offer a series of different workshops that cover a multitude of environment issues. All modules are designed to engage students through movement and fun activities. The pace of the workshops are mixed by incorporating games and dramatic play to keep children engrossed and actively learning for the whole session.

The workshops combine immediate and practical lessons for how students can reduce their environmental footprint, while imparting crucial ideas about why this is important.

*EnviroMentors* use visuals, props and interactive participation to ensure that all learning styles are catered for and each and every student goes home armed with valuable lessons and motivated to live more sustainably.

Students will be undertaking this exciting opportunity on **Friday 31<sup>st</sup> August 2018**. All costs are covered by Keep Australia Beautiful.
