

# Seven Hills West Public School

Respectful, Safe, Responsible Learners

Dear Parent/Guardian,

The school is pleased to announce that it will be running a healthcare initiative called the **Student Eye care Program**. An optometrist will be onsite during school hours to provide students with a comprehensive eye examination.

**This will be occurring Term 1 Weeks 9 to 11.**

Parents will receive a report regarding their child's eye health and a prescription will be provided if glasses are required. Suggestions will be made for spectacles with options to access very affordable frame and lens packages.

The program's aim is to detect visual problems that may interfere with a Student's learning abilities and subsequently hinder their academic potential. A significant number of students have visual problems that go undetected; these are mainly inadequate focusing and eye teaming abilities that could lead to symptoms such as poor concentration, fatigue, headaches and unwillingness to read.

This eye health service is available to all students and is covered by Medicare Australia – so there is no cost to the students with a valid Medicare number. Those students with no Medicare card who wish to be tested, will need to pre-pay \$35.00 to Andrea Miller,

Commonwealth Bank BSB: 062123

Account: 10317446

(Use your Child's name as the reference) prior to the testing day.

The QR code information attached is to be completed by the parent or guardian. Please feel free to browse the MOBILEYES website ([www.mobileyes.com.au](http://www.mobileyes.com.au)) for further information about the eye check and our personnel.

QR codes are required to be completed **online by Friday 11<sup>th</sup> March 2022.**

Please contact Andrea Miller, the Mobileyes Optometrist on 0424 097 559, if you have any queries about this service.

## FULLY BULK-BILLED MOBILE OPTOMETRY

MobilEyes Behavioural Optometry comes to **you!**

80% of a child's learning at school is through vision.

Eye coordination and eye focusing disorders can cause struggles with reading despite learning intervention.

Children do not know how they are meant to see the world, so they rarely complain.

They show us that they have a problem through behaviour changes and poor school performance.

School screenings emphasise visual acuity and miss problem such as eye coordination, tracking and focusing.

Does your child:

- get easily distracted
- not complete homework
- loses place while reading; skips lines or rereads lines
- rub their eyes
- blink excessively
- says that they do not like reading

For further information please call or email Andrea Eliastam [info@mobileeyes.com.au](mailto:info@mobileeyes.com.au) | 0424 097 559.

Please fill in the consent form found at <https://www.mobileeyes.com.au/parent-guardian-consent> or scan the QR code above.
