Lizard Log Forces Excursion – Stage 2 Term 4, Week 2 – Wednesday 23rd October 2024

Dear Parent/Caregiver,

We are excited to announce an upcoming excursion to Ranger Jamie's Forces program on Wednesday, 23rd October. Aligned with our current science unit on 'Physical World,' students from 3M, 3/4R, 4C, 3-6 Orange, and 3-6 Aqua will be going on an excursion to Lizard Log. This hands-on experience will allow students to explore various types of forces and their effects in a fun and engaging way.

During the excursion, students will:

- **Create and experiment with slime**- learning about the properties of forces through squashing and stretching.
- **Design and launch air pressure rockets**- discovering how different shapes and designs influence movement.
- **Participate in Billy Cart Championships**- racing custom-made billy carts to understand the role of wheels in motion.
- **Conduct soda bag explosions and compete in Tug-o-War**- exploring air pressure, push and pull forces, and friction.

These activities are directly linked to our Term 4 Science unit, 'Physical World—Forces,' helping students understand how objects can affect each other without touching and how forces and energy are used in everyday systems.
